

COLOMBIA NEEDS MONEY, IS BRYAN'S LAME EXCUSE.

Stung by Criticism of the Proposed Treaty, Secretary of State Declares the Justice of the Little Republic's Claim Should Not Be Questioned, but that This Nation Should Pay the Sum Demanded.

(BY A. P. NIGHT WIRE.)

WASHINGTON, July 12.—Secretary Bryan issued a statement tonight defending the proposed treaty to settle differences between the United States and Colombia over the separation of Panama. The treaty has met vigorous opposition in the Senate, and former President Roosevelt has attacked it as a vehicle for the payment of "blackmail."

Bryan declared that it was necessary to discuss only the fact that an estrangement exists, and not the events which gave rise to the difference; and that regardless of whether Colombia has a just grievance against her more powerful neighbor, no one would deny that the former country sustained great financial loss, considerably more than the \$25,000,000 which the United States would pay under the treaty, through the separation of Panama. As to the expression of regret on the part of the American government, to which opponents of the pending convention offer their bitter objection, the Secretary said this was almost identical with a similar expression in the DuBois memorandum on the basis of which the Tft administration unsuccessfully sought to placate Colombia.

FROM THE TREATY.

After reviewing the thirteen-year estrangement between the two countries, the statement continues:

"Colombia has all along insisted upon arbitration. If this nation were willing to arbitrate, it would not be necessary to discuss terms of settlement, because in the case of arbitration the parties accept the finding of the arbitrators and settle their differences according to the terms prescribed. It is not the policy of nations, however, to settle by arbitration questions like those arising between the United States and Colombia, and as arbitration is not resorted to, the settlement must be made by direct negotiations. Our nation, being much the larger nation, and having refused to arbitrate, takes upon itself the responsibility of doing justice to Colombia. Not only is it our duty to do justice to Colombia, but in case of doubt as to what is just, we must resolve that doubt against ourselves and in favor of Colombia."

"Colombia feels that she has been aggrieved, and whatever may be said as to whether this feeling is justified, no one will deny that she has sustained great financial loss in the separation of Panama from her. Before the separation took place, this government offered Colombia \$10,000,000 for the canal route and \$250,000 a year for 100 years. This annuity might be capitalized at about \$7,500,000, so that this government's estimate of the loss suffered by Colombia could not be less than about \$17,500,000. But that estimate, based upon the supposition that Colombia would retain the State or department of Panama. The retention of Panama would, however, have given to Colombia, not only the value of Panama, but the incidental benefits to be derived from proximity to the canal. We cannot deny, therefore, that the actual loss to Colombia was considerably more than \$25,000,000."

"But we have a later estimate to consider, namely, that placed upon the loss by the preceding administration. While there is a dispute as to whether Mr. DuBois exceeded his authority in the proposition that he made, there is no doubt that he was authorized to make known to Colombia that the United States would offer as the basis of a treaty, if assured of acceptance

of Colombia, \$10,000,000 for the Atrato River Canal route and arbitration of the revolutionary interest in Colombia in the railroad.

"This revolutionary interest was valued at about \$16,000,000, which would have been the sum awarded to Colombia if the arbitration was decided in her favor."

"But Mr. DuBois went further than this and suggested arbitration of a canal lease, which might have added some \$17,000,000 more, and then, upon his own responsibility, in order to sound Colombia as to her demand, asked if she would consider \$25,000,000 with the arbitration of the revolutionary interest in the canal and without granting any privileges whatever. This question, while unauthorized, could not but create in the minds of the people of Colombia the idea that this government was willing to go further than its formal offer."

THE WEATHER BACK EAST.

The Middle West and East Central States are Hot-Century Temperatures at Many Points.

CHICAGO BUREAU OF THE TIMES, July 12.—Baking hot weather has settled over all the Middle Western and East Central States and is spreading into the Northwest. Temperatures of 102 are noted over Lower Illinois, Ohio, Indiana, Iowa, and Nebraska, while Medicine Hat, in the Northwest, reports 104, or two degrees above anything in the United States. Chicago got up to 93 today with prospects for a hot siege. Cincinnati had 103 and St. Louis 100.

FIVE DOLLARS A RAT.

Dr. Rucker, in Charge of New Orleans Campaign, Offers Bounty for Each Plague-Infected Rodent.

NEW ORLEANS, July 12.—Dr. William C. Rucker, assistant surgeon-general of the United States Public Health Service, in charge of the rat destruction campaign to prevent a spread of bubonic plague in New Orleans, offered a bounty of \$5 each for plague-infected rats. Of the 2220 rodents examined, not one has been found infected, it was announced. No new cases of the plague were reported yesterday.

Mexico.

(Continued from First Page.)

family, consisting of his wife, mother and four children.

The steamer Sagapne, having on board the Mexican Finance Minister, Francisco de la Lanza, the ex-Minister of Commerce, Quirido Moreno and Mama brothers, sailed today for Havana. A special guard was maintained about the pier up to the moment of the vessel's departure.

In spite of precautions, when Moreno appeared at the steamer rails as the ship moved off, a small group of Mexicans who had filtered through the pickets and gathered at the far end of the dock, shouted insults at the former Minister. The others apparently restrained their curiosity and did not appear on deck.

IGNORE CARBAJAL, CARRANZA'S PLAN.

LAREDO (Tex.) July 12.—That Gen. Venustiano Carranza, interviewed by Huerta agents regarding the acceptability of Francisco Carbajal as provisional President of Mexico, replied he would not recognize Huerta or any one chosen in this way to succeed him, was reported from reliable sources in Nuevo Laredo today.

It has been reported recently that Huerta's agents have been in secret conferences with Constitutionalists and other forces in this way by Federalists to select Huerta's successor.

HUERTA MAY QUIT NEXT THURSDAY.

EL PASO (Tex.) July 12.—Constitutionalist agents here asserted today they had received from a secret agent in Mexico City information that Gen. Huerta would resign next Thursday.

In view of the anticipated fall of the government at Mexico City, there was a lull in the military activity of

the Constitutional forces throughout the north of Mexico. As far as was learned here none of Villa's troops have returned south. Gen. Obregon, who remained at Guadalajara, telegraphed Carranza today that he was in need of ammunition. It was learned that Villa was making arrangements to receive much needed supplies of coal before he would proceed south.

ACAPULCO VACATED BY THE FEDERALISTS.

NOGALES (Sonora, Mex.) July 12.—Acapulco, a seaport on the west coast of Mexico, has been vacated by the Federalists and occupied by Victoriano brothers, revolutionary leaders, according to a telegram from Gen. Alvarado sent at 10 o'clock this morning.

Gen. Alvarado, who is commander of the Constitutional forces here, Guaymas, stated the situation at that seaport was unchanged, although there were fifty-one desertions from the Federalists to the Constitutionalists under the Figueroa brothers. When this combined force approached the town the balance of the Federalists retreated, but whether by land or sea it was not possible to ascertain.

SAYS HUERTA MUST SURRENDER.

CHIHUAHUA CITY (Mex.) July 12.—Gen. Villa today received a telegram from Gen. Carranza in which the Constitutional commander-in-chief said he would not accept Carranza's internal affairs. Carranza also stated that the only thing he would accept was the surrender of Gen. Huerta and his army.

Upon his arrival here today, Gen. Villa said that he might start south with his army, within a week. Military men in this city today expressed the belief that the Federalists intend to defend the national capital with their resources.

Many mines have been laid in the approaches to the city and numbers of field pieces have been placed at strategic points around Mexico City, it was reported.

Lieut. Mori, of the Japanese navy, visited Gen. Villa during the day. Mori's mission is that of a military observer, it was stated.

TO BOARD WITH UNCLE SAM.

Cruiser Denver Leaves for San Diego Five Mexican Prisoners Rescued Off Gunboat Tampico.

SAN DIEGO, July 12.—With five Mexican prisoners who had been rescued from the ill-fated Constitutionalist gunboat Tampico, which was sunk a few weeks ago by the Federal gunboat Guerrero, the cruiser Denver arrived this morning from Mazatlan en route to San Francisco. After leaving the Mexicans at the refugee camp near here the warship took on supplies and left at noon for San Francisco.

SANTA ROSALIA MINES WORKING.

ON BOARD U.S.S. CALIFORNIA, SANTA ROSALIA, July 11.—(By Wireless to San Diego, July 12.)—The California arrived at Santa Rosalia early today and found the smelters and mines in full operation, with 4000 men at work. The industries are working without interference, save from occasional depredations by cattle thieves on the outskirts of the mining concession.

The French flag is flying over the mining territory, and indications are strong that the situation on the West Coast will be cleared in the near future without further bloodshed.

Rear-Admiral Howard is affording the belligerents his good offices in the peaceful solution of difficulties and the relief of the besieged seaports. Results are confidently expected shortly.

Passengers Taken Off.

RIMOUSKI (Que.) July 12.—The steamer Canada of the Gaspe & Bale Co. Chateaux Co., Ltd., a brig, was wrecked on Montserrat Island, N. B., struck the rocks of Cape Chateaux last night in dense fog a half-mile east of Cape Chateaux light. The Canada carried about 100 passengers, who were landed without accident.

SHOTS EXCHANGED IN COUNTY DERRY.

LONDON, July 12.—A Belfast dispatch to the Daily Mail says shots were exchanged in a fight late Saturday night between Nationalists and Unionists at Killea, County Derry. The police succeeded in preventing serious disturbances.

"Immune Fringe."

MILITANT PUTS BOMB IN CHURCH.

MISSILE DISCOVERED BEFORE IT CAN EXPLODE.

Famous St. John the Evangelist, in Westminster, London, Scene of Latest Attempt at Destruction. Sylvia Pankhurst Attends Parade and Urges "No Vote, No Rent."

LONDON, July 12.—A bomb was discovered tonight in the famous old church of St. John the Evangelist, Westminster, and Annie Bell, a woman who has figured several times in militant activities, was arrested. This church was damaged last March by a bomb which the suffragettes placed beneath the seat in the gallery above the pulpit.

A member of the congregation noticed a light flickering in a pew in the rear of the church and found a candle so placed as to ignite a fuse connected with a can of gunpowder. The suffragettes have been active during the week end, burning a railway station near Leicester. They are suspected of being responsible also for an explosion last night in one of several mail bags which were being conveyed from Blackpool to Manchester.

In spite of the fact that her license of release from Holloway Jail had expired, Sylvia Pankhurst took part today in a suffragist procession through the East End of London to Cannon Town public hall.

The militant leader was loudly cheered when she reached the hall and again when she rose to speak. Referring to the deputation which Premier Asquith received on June 20, she said the Premier needed to be enlightened regarding the condition under which women lived in the East End. Seeing the conditions of things, she said, they had the courage to object to have, there certainly would be rioting in the streets.

Miss Pankhurst advocated a "no vote, no rent" crusade, which would terrify the government.

SUFF THROWS BALL AT QUEEN MARY.

EDINBURGH (Scotland) July 12.—King George and Queen Mary, who made their last public appearance today in their Scottish tour, were subjected to a fresh insult by a suffragette, who driving to St. Giles Cathedral to attend morning service.

Just outside the cathedral, a Dundee suffragette, Olive Walker, broke through the spectators and police and hurled a rubber ball to which was attached a label inscribed, "stop forcible feeding."

The ball landed on the lap of the Queen who laughingly brushed it aside. The woman, who was removed from a threatening crowd, but later was released.

CHAUTAUQUA RESORT RAIDED.

Fifteen Thousand Bottles of Beer and Much Whisky Seized in Four Celeron Hotels.

JAMESTOWN (N. Y.) July 12.—Four hotels at Celeron, a Chautauqua lake summer resort, were raided by representatives of the State excise department last night and 15,000 bottles of beer and a large quantity of whisky, gin and other liquors was seized. Celeron is a "dry" town.

Passengers Transferred.

NEW YORK, July 12.—Two hundred passengers, more than half of them women and children, on board the excursion steamer Roedals, aground on Jamaica Bay sand bar, were taken off that vessel in life boats today and transferred to a police boat which brought them to this city. The Roedals remained fast in the sand to night.

VOLUNTEERS' COUP MAILED BRITISH LOOK FOR

(BY ATLANTIC CABLE AND DIRECT WIRE.)

LONDON, July 12.—A hundred Ulster volunteers have just brought off a coup which will make the British government look more foolish than ever. At the point of revolvers they have recaptured the consignment of 200 Mauser rifles and 10,000 rounds of ammunition seized by the customs authorities at Londonderry a few days ago. By means of a perfect secret service, Ulster volunteers secured information of the intention of the authorities to convey the arms to Dublin by a train leaving Londonderry Saturday morning. The volunteers planned to board the train and win back the arms at all costs. Directly the train entered Enniskillen station 100 volunteers rushed on to the platform and secured the arms and ammunition. The volunteers then removed the arms and ammunition to a safe place. The volunteers then removed the arms and ammunition to a safe place. The volunteers then removed the arms and ammunition to a safe place.

CONGRESS TO RUSH TRUST LEGISLATION.

(BY A. P. NIGHT WIRE.)

WASHINGTON, July 12.—Trust legislation to complete the administration's legislative program will be undertaken in earnest in the Senate this week.

Administration leaders have estimated that it will require at least five or six weeks to pass the three trust bills, the Clayton bill to supplement the Sherman Act, the bill creating an Interstate Trade Commission and the measure giving the Interstate Commerce Commission authority to regulate the issuance of securities by common carriers.

Republican Senators think it will require more than six weeks if the three measures are considered separately. Some Democrats also hold this view, and there is a rapidly growing sentiment in favor of consolidating the three bills into one measure.

The squabble over the nominations time.

PARIS STREETS CAVE IN AFTER THUNDERS.

(BY ATLANTIC CABLE AND A. P.)

PARIS, July 12.—In the central fashionable quarter of Paris today several street cave-ins occurred after a heavy thunderstorm. In the Place St. Auguste, not far from the spot where a gasometer was exploded in a similar subsidence on June 12, a portion of the roadway about ten feet square collapsed. Traffic has been diverted from this neighborhood.

FIFTH CASE OF PLAGUE.

Woman Stricken in New Orleans and Thousands of Rats Examined to Find Infection.

NEW ORLEANS (La.) July 12.—Another case of bubonic plague, the fifth since the disease appeared, two weeks ago, was found here today by Dr. W. C. Rucker, Assistant Surgeon-General of the United States health service.

The victim, the first woman to be stricken, is a negro who was employed in a restaurant within two blocks of where the first case was found.

The woman was near death tonight. Approximately 4000 rats have been examined since the first plague case, without finding any signs of infection.

Capt. John D. Fredericks off for the north.

The District Attorney and candidate for the Republican nomination for Governor left yesterday morning by automobile for a tour of the upper end of the State. His first stop will be for a meeting at Bakersfield tonight. At the left, seated in the motor, is Mrs. Fredericks.

A PARTING MESSAGE TO SOUTHERN REPUBLICANS.

BY CAPT. JOHN D. FREDERICKS.
Candidate for the Republican Nomination for Governor.

I AM leaving the Southland to go out into the great northern and central parts of the State and carry the gospel of Republicanism and the message of splendid enthusiasm for the party here, as I have found it in touring the State.

I leave my candidacy in the hands of the great mass of loyal Republicans, the rank and file to whom I have always looked for inspiration and support. This is a people's campaign so far as I am concerned. I have not striven to interest only the few, but to reach the masses and have solicited the support

"FLY COPS" TO BE REALITIES.

"Aeroplane Division" of the Police Force Launched.

Chief Sebastian Calls for Aviation Volunteers.

Foresees Coming of 'Aerial Gangs of Bandits.'

Comes now the aeroplane policeman! Los Angeles will have the distinction of having the first winged cops. "Flying squadron" will no longer be a figurative phrase, but a literal description of the Angel City corps of police aviators.

The first tangible step toward the establishment of a patrol of the air lanes will be taken this afternoon when Chief of Police Sebastian will insert in the official police bulletin, which goes out to every one of the 550 members of the force, a call for volunteers for the new branch of the service. From among the applicants the Chief will select a squad of four and these will go down in history as the original and only genuine "fly cops."

When the four are selected they will be directed to report to Walter Brookings at the Griffith Park aviation field. Brookings is one of the oldest aviators in point of service still flying. He was an instructor in the Wright Bros. aviation school and Hoxey, Johnston and Parmelee were his pupils. Chief Sebastian has been his passenger many times and it is in connection with Brookings, who is now an ex-officio member of the police force, that the Chief has planned the aeroplane division.

At the present time no purchase of aeroplanes for the new division is contemplated. The Chief wishes his aviators thoroughly schooled in the handling of the air craft before embarking as full-fledged flyers. The subject of aeroplane policemen was discussed by Chief Sebastian before the International Convention of Police Chiefs at Grand Rapids recently and received wide and favorable attention.

"I know there are some people who are skeptical of the practicability and utility of the aeroplane," the Chief said yesterday. "There were many, not so many years ago, who scoffed at mention of the automobile in police work."

The aeroplanes will soon find their place there, just as the automobile has. Already its usefulness to the army has been demonstrated in and about Vera Cruz and before that in the Balkan States.

"Aeroplanes may be used in the city as well as in the country, so far as our work is concerned. The territory where city boundaries include wooded and hilly sections, where one may see only a short distance, an experienced aviator could instantly tell the entire area from 500 to 1000 feet. With wing-wag signals, or the signaling device, he could easily communicate with a car or a train, a fugitive along the highways, giving them any information obtained from his seat in the aircraft. For reaching isolated localities in desert country, on the plains or prairies or seashore, an aviator could save at least two-thirds the time ordinarily required in reaching such places by rail, automobile or on horseback.

The cost of an aeroplane is from \$2000 to \$4000, and the necessary equipment. This is about the same cost as of a standard make of automobile. The life of an aeroplane is from three to five years. They are cheaper to maintain and operate than the automobile such as is used in police work."

Chief Sebastian predicts that the police will one day have to contend with the aerial bandit, just as they have with the automobile bandit.

High-rollers and Fly-by-nights Beware!

When the cops wear wings.

Chief Sebastian will this afternoon ask for volunteers for his "aeroplane division" of the police force. The Chief predicts that we will ultimately have aerial bandits and he is going to get ready.

TWO BIG INNER HARBOR JOBS TO START TODAY.

WORK that will double-rivet the people's control of harbor facilities will be started today when, simultaneously, city steam shovels will begin the cutting down of the face of Timm's Point, and the Llewellyn Iron Works will put forces to work erecting the mammoth transit shed on city dock No. 1.

In doing this work, the appearance of the entrance to the inner harbor will be materially changed. In fact, the eventual aspect will be such as to prestage the extension of the breakwater and the reclamation for dockage use of the shallow water fronting Terminal Island, as is contemplated in the Goodrich plan.

The cutting down of Timm's Point is an important adjunct to the work which the Llewellyn Iron Works will do on city dock No. 1; a work that will be in the nature of a finishing touch to an enterprise on which the city will expend \$1,250,000.

Occupying a strategic position on the most desirable deep-water

STRIPS SELF OF CHIEF WEAPONS.

Socialists Repudiate the City Central Committee.

Takes Away Right to Control Their Office-Holders.

Wheeler Is Sustained After a Terrific Battle.

After four and a half hours of pandemonium at the Labor Temple yesterday afternoon—the Socialist party made history for itself when Councilman Fred C. Wheeler met, face to face, the enemies who are seeking to recall him for alleged un-Socialistic acts. At the close of the session, during which there was something popping every minute, the convention voted, 115 to 10, to approve the course of the party's only representative in the City Council.

The action of the City Central Committee, which took Mr. Wheeler to task was repudiated and his friends cemented their victory by passing a resolution depriving the committee of the right to dictate to office holders in the future and to tend strictly to their knitting, which was defined to be matters of a purely executive nature.

The specific charges against Mr. Wheeler were that he failed to follow the instructions of the City Central Committee to vote for 30-cent gas and that he condoned the action of the police in suppressing the Plaster riot of last Christmas Day.

The general charges against the councilman were that he was not enough of a disturber and obstructionist and that he is too friendly with Mayor Rose and his colleagues in the Council and too considerate of the rights of corporations.

FRANTIC SCENES.

Both factions strove to take advantage of the power of oratory, the disconcerting effect of manufactured noise and the tricks of parliamentary practice. Often ten to fifteen frantic men and women were striving for recognition from the chair at the same time. It was a trying afternoon for T. W. Williams, the presiding officer.

More than one hour was spent in deciding on a programme of procedure. Finally it was voted to give the "prosecution" thirty minutes in which to present its charges, the friends of the councilman an equal amount of time in which to reply and Mr. Wheeler twenty minutes in which to clear his skirts.

With everything all set, the session started upon the adopted schedule. Six of the councilman's enemies were allowed five minutes each in which to present their grievances. Six of his friends talked five minutes in rebuttal and then the man around whom the storm centered took the floor amid mingled applause and hisses.

In the early part of the meeting the noise and general showing made by the two factions was about equal and for some time the issue seemed in doubt. The personality of Mr. Wheeler, the brilliant tactics of his supporters and the evident justice of their cause gradually wore down the opposition. But the final vote, which came near 6 o'clock, was a surprise to all.

CURSE FOR WHEELER.

The afternoon was punctuated with many dramatic incidents. Right in the midst of Mr. Wheeler's heated

Something Absolutely New in a Musical Instrument

Time and time again pianists have stated that they believed it impossible to faithfully reproduce their playing on an automatic instrument.

But the seemingly impossible has been achieved.

The new Apollo Reproducing Piano does reproduce the hand playing of pianists with every artistic detail true to life.

And it does all this without human guidance in any shape, form or manner!

This wonderful new instrument in your home will render the piano music you want, the way you want it, when you want it and without the necessity of an operator.

Simply put in the desired roll—touch a button—and the instrument—absolutely and positively—by itself does the rest.

In addition to its wonderful automatic qualities it can be played by hand as a regular piano, or as a Solo-Apollo, with the motor doing the pumping, or by the pedals as an ordinary player piano.

Whether you are thinking of purchasing or not, it will be time well invested to come in and hear the new Apollo do, by itself, all that a master pianist can manually.

EARLY MORNING FIRE MYSTERY.

FIREMEN FALL THROUGH FLOOR, ONE INJURED.

Awakened by Flames, Former Wife of Attorney Flees With Children and Jewels—Twenty Thousand Estimated Loss in Complete Destruction of Fine Hollywood Home.

Nothing has been learned of the origin of the fire that early yesterday morning completely destroyed the two-story residence of Mrs. Earl Rogers at North Vermont avenue and Los Feliz road, Hollywood. The loss was estimated at \$20,000, including practically everything that was in the house.

Mrs. Rogers was awakened by the smoke and discovered the fire in a room on the second floor. She gave the alarm and the servants escaped. Mrs. Rogers followed with the children and her jewel box, which she had caught up. From the telephone on the first floor she advised the fire department. The people in the house escaped only in their night clothes.

When the fire department arrived the second floor was ablaze and the eager flames were making their way to the lower floor, from which some articles of furniture had been taken by neighbors.

The firemen succeeded in getting a hose to the second floor. A warning sent them in retreat and a moment later one of the walls fell where they had been standing.

In groping their way down the hall they stepped into the pit, where the stairs had been, falling to the first floor. One of the men, E. A. Holmes, engineer of Company 23, was on the bottom of the heap, and sustained severe injuries. He was taken to the Angell Hospital, where it was found that he suffered a broken toe, a badly burned about the head and that his body is severely bruised.

The other firemen with Holmes were endangered by the nozzle of the hose they had held. Carrying a high pressure hose writhed and swished until the water was cut off.

The Rogers home was set in slight grounds. It was awarded to Mrs. Rogers several months ago in a property settlement following her divorce. Nothing remained yesterday but the charred ruins, which attracted a large crowd of sightseers.

CELEBRATE WORK DONE ON DIRECT LINE TO SEA.

THE completion of the Santa Monica terminal of the direct Pico-to-the-Sea boulevard and the success that has attended the efforts to have this air-line highway speedily constructed were celebrated by many enthusiastic property owners of this city and Santa Monica yesterday.

Thousands in automobiles and great motor busses drove over the entire route selected in a straight line from Pico street to the water front at Fremont and Ocean avenues, Santa Monica. Part of the journey was necessarily made over a comparatively rough road, temporarily built to show the exact course.

Officers and members of the Pico-to-the-Sea Association and others who welcomed the visitors and introduced Carl F. Schader, who has been largely instrumental in securing the Santa Monica improvements and in working for the Los Angeles connection.

GOVERNOR PICO'S PLAN.

Mr. Schader recalled to his hearers the time when the present magnificently improved boulevard was an unsightly hole that required 50,000 cubic yards of dirt to fill. Gov. Pico, forty years ago, he said, predicted and urged a direct road from Los Angeles to Santa Monica. Twenty years ago the matter was actively taken up and has continued until now.

Mr. Schader told of the difficulties that beset the advocates of the Fremont-avenue improvement, covering a period of four years and requiring the passage of seventy-five ordinances by the City Council of Santa Monica.

"We have now improved Fremont avenue at an expense of \$150,000," he said, "and Santa Monica has only started. We are about to vote bonds for a great auditorium which will cost

BILLETTE ACCEPTS

SEYMOUR'S DEFI.

Arthur Seymour's challenge to Byron Gillette for match at three-shion billiards for the Los Angeles championship and the Brunswick-Balke-Clender trophy won by Gillette in the recent tournament, has been accepted by the latter, and the principals are to meet a representative of

The sensational finish in which Hallett snatched the title and silver cup literally out of Seymour's hands by an almost unrepresented series of successful shots, is fresh in the minds of the billiard public. Seymour considered his loss a 100

shot, and immediately filed his challenge for a set match, according to the tourney conditions. These retire Gillette to name a date of play within three weeks after effective notice, with no change allowable except by consent of donors and the two parties interested.

As the match is to be played in a public place, it will doubtless consist of three nights' play, after

While Gillette may select the date, within the time mentioned, the donors may choose the place of play, and he must be consulted regarding details. Circumstances point toward a lively

of matches for this trophy, as
 as experts have already announced
 ir intention of challenging the win-
 of the coming contest.

**ALTON AND REES
 TO FIGHT TUESDAY.**

D TIME RIVALS WILL MEET AGAIN AT JOE LEVY'S TOMORROW.

According to Scribe Harry Burns, Dalton and Louis Rees are to be one of their time-honored affairs which, to quote the eminent

er, "to settle for once and all who is who between them," the occasion for this dreadful scene being Levy's training camp, Tuesday night.

Many other bouts which promise to be equally ferocious are on the programme for the evening, such stars as the first magnitude as Steve Dal-Johnny Conley, Curley O'Neill,

any other bouts which promise

are equally ferocious are on the programme for the evening, such stars as the first magnitude as Steve Dal Johnny Conley, Curley O'Neill, Peter Miller, Perry Yants and others have signed up. Young Buddy is to make his reappearance against a party by the name of Jack Lawrence.

Angels Play Portland.
Three games in the lead, the Angels will start the second half with a fortnight on the road. They will open with Portland tomorrow, and naturally the people of that city are keyed up to a high pitch of expectation. It will be one of the prize series of the season. To date, the Angels have had the edge on the Beavers, taking twelve out of twenty-one. On their last trip to Portland they walloped the Beavers five out of seven.

Have It on Goals.
If past dope counts for anything, the Tigers should take San Francisco still further down the list. Down to the present penning they have wrestled eleven out of nineteen from Howard's hirelings.

Where They Will Play.
Following is the schedule of the two southern clubs for the last half of the year:
L. A. HOME DATES.
July 28-August 2—San Francisco at Los Angeles.
August 11-15—Venice at Los Angeles.
August 18-22—Sacramento at Los Angeles.
September 8-12—Portland at Los Angeles.
September 15-19—Oakland at Los Angeles.
September 22-27—San Francisco at Los Angeles.
October 28-31—Venice at Los Angeles.

L. A. ROAD DATES.
July 14-15—Los Angeles at Portland.
July 21-22—Los Angeles at Sacramento.
August 4-5—Los Angeles at Oakland.
August 25-26—Los Angeles at Venice.
September 1-7—Los Angeles at San Francisco.
September 23-October 4—Los Angeles at Portland.
October 6-12—Los Angeles at Venice.
October 13-15—Los Angeles at Sacramento.
OCTOBER HOME DATES.
July 14-15—San Francisco at Venice.
July 21-22—Oakland at Venice.
August 4-5—Portland at Venice.
August 25-26—Los Angeles at Venice.
September 1-7—Oakland at Venice.
September 15-19—Portland at Venice.
October 6-12—Portland at Venice.
October 13-15—Portland at Venice.

VENICE ROAD DATES.
July 28-August 2—Venice at Sacramento.
August 11-15—Venice at Los Angeles.
August 18-22—Venice at San Francisco.
September 8-12—Venice at Sacramento.
September 15-19—Venice at Oakland.
September 22-27—Venice at Portland.
October 28-31—Venice at Los Angeles.

The Won and Lost "Dope."
The work of the clubs against each other down to the half-way mark, including the games of yesterday, is herewith presented in single-column measure:
Los Angeles...
Portland...
Oakland...
San Francisco...
Venice...
Sacramento...
Seattle...
Portland...
Oakland...
San Francisco...
Venice...
Sacramento...
Seattle...

Howard Drew, the wonderful sprinter, has returned to his Springfield (Mass.) home from the University of Southern California, and may put in the summer at his old position as a porter at the Union Railroad Station. Drew plans to take part in about one race every week. He expects to take part in the Amateur Athletic Union championships to be held in Baltimore in September, and will also compete in the Canadian championships. About October 3 or 4 he will run in a meet at Fresno, Cal. He may try for the football team at the University of Southern California in the fall. In addition Drew is a good baseball player.

The United States Football Association, recently admitted into membership in the International Federation, was incorporated at Albany a few days ago. It is the governing body of the soccer game in this country and each year conducts a tourney open to the entire country for the DeWitt Cup, won during the 1913-14 competition by the Brooklyn F. C.

The Aeolus.

Aeolus Wins Trophies.

(Continued from First Page.)

close as to almost go around. In this he secured the breeze he was seeking, but at the windward stake the Aeolus, getting every wind at sea from the race, went ahead and from then the race was a procession, with the Aeolus leading.
The Vito, Commodore Ben A. Weston, made a better race today than yesterday, as Commodore Weston had adjusted his sail to the lighter winds of the southern bay. The little Vito fell out of the race in the last leg of the race and showed her pulling power by towing in the stake boat.
The elapsed time of the boats in the race was: Columbine, 2:14:17; Aeolus, 2:14:18; Vito, 2:14:19; Gretchen, 2:14:20; Vito, 2:14:21; Gretchen, 2:14:22; Vito, 2:14:23; Gretchen, 2:14:24; Vito, 2:14:25; BURGLARS RIFLE CASH REGISTER.

Varnished Footprint Trail Leads Out Window.

Missing Lovers Leave No Clue to Whereabouts.

City Park Force Is Setting Out Shade Trees.

PASADENA, July 11.—Burglars Saturday night ransacked the studio and store of Shirley Vance Martin, a photographer and art dealer, at No. 184 East Colorado street, and stole about \$50 and a number of cameras valued at about \$400. Entrance was gained by breaking the lock on a rear window.

The floor had just been freshly varnished and the book-keeper was surprised yesterday morning on coming to the store to see a trail of footprints between the rear window and the counter, where the cameras were kept.

The police are inclined to believe that there were two burglars. They showed great boldness in approaching the counter, which can be seen from the street. The money was taken from the cash register, which was broken open.

BOTH DROP OUT OF SIGHT. Lester Crawford is still missing and it is the opinion of some of those interested in the case that the whereabouts of Miss Laura Koppe, the girl he would marry, and accompany to Japan as a missionary, also is unknown here.

At first her disappearance was as much a mystery as his. Then it was said that she had gone to San Diego. Now it is not believed by some, at least, that she is there, or if so, that she is in hiding.

A dozen clues have been followed, but the young man who made his escape from the sanatorium of Dr. T. W. Bishop in South Pasadena, and followed up that episode by breaking away from his guards at San Bernardino, seems this time to have been shrewder than ever.

An attempt will probably be made to save the \$500 bond declared forfeit last Saturday by Justice of the Peace Glover of South Pasadena before whom young Crawford was to have appeared to answer to a charge of disturbing the peace.

"They adjudge him insane and then arrest him for disturbing the peace," said J. G. Rosdler, who appeared in the case in behalf of young Crawford.

The dramatic experiences the young man has undergone in his efforts to marry Miss Koppe, despite his father's objections, began May 27, when he was placed in the sanatorium by his father. Since then things have moved fast. Crawford is under age and the county clerk of most of the counties in Southern California have been notified by the father not to issue a marriage license for the couple.

CITY BRIEFS. The greater part of the city park force is now at work setting out trees and planting lawns at Brookside Park, where a plunge was dedicated on the Fourth of July, and City Park. The plunge was taken to its capacity last night that the appearance of the place will be greatly changed in the next six months. The entire sixty acres is to be improved and the park will be the largest in the city. There was a large crowd there yesterday and the plunge was taken to its capacity.

L. Ryder, the dean of Pasadena automobile dealers, expects soon to leave with Mrs. Ryder for an automobile trip across the continent. They will go to Bangor, Me., where they formerly lived.

Mr. and Mrs. H. J. Roach of Hollywood and their son, Emerson Roach, who motored up Mt. Wilson last week, entertained with a supper and dance at Strain's Camp there last Saturday night. The next thing on the program for the Wilsonites is a tango tea. It will be a masquerade and will be given in the near future.

SAN GABRIEL BANK. **[LOCAL CORRESPONDENCE.]** **SAN GABRIEL, July 12.**—Within eight weeks, at the outside, this city will have its own bank. The establishment of a bank has been under consideration for a long time and the papers have been filed with the State authorities asking for a charter for a State bank. Local people have already subscribed \$25,000 toward the project, and at a meeting Saturday the following directors were named: E. K. Alpaugh of Sunny Slope, A. J. Cuneo, A. W. Ashburn, G. Daken, N. Essick, W. E. Fee, A. May, August Johnson and J. Woodell. An Alhambra bank plans to establish a branch bank here before fall for the accommodation of its San Gabriel patrons.

HEIRS DIVIDE GREAT RANCH.

[LOCAL CORRESPONDENCE.]

SANTA BARBARA, July 12.—Distribution of the 4328 acres comprising the Los Alamos ranch, owned by the Gaspar Orena estate has been effected through an agreement among the heirs, Mrs. Maria Antonio de la Guerra de Orena, the widow having waived her half interest rights and life estate. The heirs are to join in sharing on the Dr. Elder ranch near entire ranch, each not being confined to the oil profits from his or her individual holding as partitioned. The heirs are Caesar E. Lataillade, Maria Antonia Lataillade, Dario Orena, Orestes J. Orena, Arthur G. Orena, Serena O. de Koch, Acacia T. Rickard.

DONATES A SITE FOR AUDITORIUM.

SANTA MONICA'S WORRY OVER LOCATION OF MUNICIPAL BUILDING OVER.

[LOCAL CORRESPONDENCE.]

SANTA MONICA, July 12.—Carl F. Schader today tendered to the city of Santa Monica two sites for the proposed \$150,000 auditorium on which a bond election has been called for July 15. In the presence of city officials, members of the Greater Santa Monica Club and representatives of other organizations, Schader affixed his signature to the offer to present to the municipality a site on the south side of the municipal pier, valued at \$10,000, or a site a little farther south, fronting Vicente terrace.

The gift of either of these sites clears away one of the complications that confronted the proponents of the big auditorium, as the cheapest site that had previously been available was north of the municipal pier, to cost \$10,000.

Schader's action will, it is believed, have an advantageous bearing on the coming election. Friday night a meeting of city officers and members of civic clubs will be held to take official and formal action on the presentation.

The two sites can easily be connected with Fremont boulevard, the Santa Monica and of the Pico-Santa Monica boulevard, over which a parade was held today, ending with a large celebration at Vicente terrace.

Camping for the day on the Santa Monica seaside sands.

Above the Russell and Garcia families are preparing dinner; below, enjoying the fruits of their labors; left to right, standing, are Mrs. E. J. Russell, Mr. P. J. Garcia and E. J. Russell; seated is P. J. Garcia.

CAMPS OF A DAY DOT BEACHES FOR MILES.

[LOCAL CORRESPONDENCE.]

SANTA MONICA, July 12.—All along the shore line from the Pico-Santa Monica beach to the beach at Santa Monica, there were hundreds of little one-day vacation parties yesterday. Everywhere thousands of persons were swimming in the surf and lying on the warm sands where the refreshing breezes blew.

The most unique party to be seen today along the whole shore line was that of two families who cooked corn and ate it right on the sand, where they improvised a tent, stove and bath-house. P. J. Garcia and E. J. Russell, accompanied by their wives and Baby Russell, had the time of their lives frolicking on the beach. Four poles, a square of canvas, two old gasoline cans, a large pail, and a basket of fresh sweet corn made up the ingredients for this jolly party, and they surely had a time of it all day.

FIREMEN COMING BACK TO DUTIES. **INSURRECTION FIZZLES WHEN MEN GET HEARING—BIRTHDAY PARTY UNHAPPY.**

ALHAMBRA, July 12.—The fifteen firemen who recently resigned from the company, giving as their reasons that they had not been properly notified at the time of fires, will resume their positions tomorrow morning. It was not generally known that the men among the most efficient in the Alhambra fire department had been induced to return at a meeting held by the Fire Committee of the City Council last Wednesday evening. The men sought no compromise and asked no favors, and their return to the service meets with great approval.

HIGH CASTLE DANCERS. Who put the "jinx" on Alhambra's birthday party? Owing to much grumbling on the part of citizens who refuse to be quoted, it is not likely that the city will have another birthday celebration unless the matter is taken in hand by the city itself. Mismanagement is the general expression, which reached its height

Mrs. Aselin Was Restored to Health by Lydia E. Pinkham's Vegetable Compound. Minneapolis, Minn.—"After my little one was born I was sick with pains in my sides which the doctors said were caused by inflammation. I suffered a great deal every month and grew very thin. I was under the doctor's care for two long years without any benefit. Finally after repeated suggestions to try it we got Lydia E. Pinkham's Vegetable Compound. After taking the third bottle of the Compound I was able to do my housework and today I am strong and healthy again. I will answer letters if anyone wishes to know about my case."—Mrs. JOSEPH ASELIN, 6225 Monroe St., N.E., Minneapolis, Minn.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and today holds the record of being the most successful remedy we know for women's ills. If you need such a medicine why don't you try it?

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

ORANGE COUNTY ROADS DEVELOPING RAPIDLY. **[LOCAL CORRESPONDENCE.]** W. T. Newland of Huntington Beach and R. J. McFadden of Anaheim, realize that nine-tenths of the efficiency of the good roads work lies in the character of concrete obtained, and they and their engineers, of whom H. H. Finley is chief, are paying close attention to the mixing and curing of the product.

Proportions of cement, sand and gravel are looked after, and after the concrete is laid the contractors are required to keep the concrete wet. At Garden Grove for days the middle of the streets looked like miniature canals. Dirt was used to make banks along each side of the strip of concrete, and water was kept standing on the concrete.

The base has been laid for the State highway between Santa Ana and Anaheim, and is nearly completed between Anaheim and Fullerton. About 6000 feet of base is still to be laid on the State road between Fullerton and the county line in La Habra Valley.

when it was circulated that instead of one dance to be given at Stride's Hall and which was extensively advertised, another for the elite was given at the Woman's Clubhouse. No public notice of the latter function was given and the people feel that as long as the celebration was gotten up for the people and contributed for by them, no such distinction was necessary.

Plans for the new grammar school buildings and for the new group of buildings for the High School campus have been submitted to County Superintendent Keppel for his approval, and upon his acceptance bids will be received for the work.

Added to the High School building will be three structures—a science hall, physical culture building, and manual training building—and \$100,000 will be repaid on the group, and like amount on the new grade buildings, which will be located on South Fremont avenue at Garvey avenue, and an addition at Granada school, in the eastern part of the city.

A strong effort is being made by representatives of various churches in the city to have articles forbidding the sale of liquor, except on prescription, and cigarettes, included in the charter that is now being prepared by the freeholders for the consideration of the public in September.

REAL ESTATE MOVING FAST NEAR FOOT. **[LOCAL CORRESPONDENCE.]** plots of from one to five acres in close proximity to the city have just been sold at a cost of \$100,000 for an estate of \$1,000,000. The estate is situated on a tract of 100 acres, between the city and the ocean, and is being sold by the Western Improvement Company of Los Angeles. F. D. Haddock, well known in the real estate world through his launching of many successful subdivisions in Southern California, handled the transaction and expects to begin work of improving the tract at once.

The land will be subdivided into

POTS AS REFRIGERATORS.

Simple Way to Preserve Butter and Other Things in Tropical Climates or on Hot Days.
[New York Sun] Pierre Lord, an American of French ancestry, has just found that an ordinary red clay flower pot can be made use of to keep water, butter and other things at refrigerator temperatures in tropical climates or the hottest of August days.

While the ordinary flower pot will do, any sort of clay jar, porous vessel or common unglazed earthenware pot or receptacle may answer.

All you have to do is to moisten a rag or bag cloth with strong salt water and keep it over the top of the flower pot. The ends should dip down into a soap dish or basin, on which the flower pot stands. This draining dish must be kept full of water all the time. A dark, cool pantry, just where you would keep an ice cooler or a refrigerator, is a good place to keep the clay jar or pot.

Another way described by C. F. Saunders is to wrap a layer of burlap around a porous jar. The water or butter, or what not, is put in the jar and it is exposed to a current of air, any, on a dark window sill with the window open and shutters closed.

The water inside the porous pot perspires its way in a microscopical moisture through to the outer surface. The rag bag or burlap maintains just a slow rate of evaporation that the pot is kept cool and this cools the contents.

A simple little laboratory experiment readily confirms the principle. Only to every home and boarding-house in the land, but in times of ice famine on trains in deserts, on the baseball field in the past and in the kitchen of hotels and other places.
